

REMARKS

The specification is amended to correct a typographical error. In particular, line 1 on page 23 is amended to reference Figure 6, rather than Figure 2. It is clear from the text of the first paragraph on page 23 that this paragraph is describing Figure 6, rather than Figure 2 as incorrectly indicated in the application as filed. No new matter has been added by the amendment to the specification.

In view of the above, the Examiner is respectfully requested to enter this amendment prior to issuance of the patent. If there are any remaining issues that need to be addressed in order to place this application into condition for issuance, the Examiner is requested to telephone Applicants' undersigned attorney.

Respectfully submitted,
